

REAL PATIENTS

REAL STORIES

When an early morning collision with a deer threw him off his bicycle, John Debacker's first concern was that he would be late for work. Blinding pain told him he might have something bigger to worry about. His hip was broken. His specialist suggested French Hospital where state-of-the-art equipment would enable him to benefit from the new Anterior Approach Hip Replacement.

"I completed a 65-mile ride just 9 days after surgery."

"I have full recovery of flexibility and stamina... and 100% faith in the staff at French."

— John Debacker

French Hospital's Joint Replacement Program is nationally recognized for excellence.
